## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with James Blanchette on 12/27/03.
3. Claims 35-37 are cancelled without prejudice and disclaimer.

### ***Allowable Subject Matter***

4. Claims 1-34 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Referring to claims 1, 11, 19-22, 27, and 32-34: The prior arts on record do not disclose or explicitly teach reducing delays in interrupt handling by moving acknowledge operations closer to the processor and the usage of combining two types of interrupt signals, pulsed interrupt signals and Level Sensitive Interrupt (LSI) signals. The prior arts on record do not disclose or explicitly teach an external device connecting to an interrupt multiplexer via a low-speed path, and the external device issuing the pulsed interrupt signals to the multiplexer via the low-speed path. The multiplexer connects to the processor via a high-speed path; and in response to the pulsed interrupt signal, the multiplexer issues LSI to the processor via the high-speed path. The

LSI signal remaining asserted until the interrupt is acknowledged by the processor by clearing the status bit.

Referring to claims 2-10, 12-18, 23-26, and 28-31: Claims are allowable because they incorporate the parent claim's allowable subject matter.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Justin I. King whose telephone number is 571-272-3628.
